NUMBER 19

An Elks Lodge

We have a full fledged lodge of Elks in Dothan now. That was about all the secret order we needed to complete the list.

The fun started right after dinner yesterday, and at a scandalously late hour last night, the game sounded young. We could distinctly hear the groans of the victims down stairs, and the boys in the office thought a time or two, it would be an act of humanity to rush up stairs with a hammer and shooting stick and end the trouble.

We feel as if we had about half of the claims to the order, for having it communicated through the second floor.

The weather was not warm, but a dray unloaded a large block of ice, just from the factory, to begin with. Then away long later, ice cold water commenced to pour through the floor into our type cases, and trickled down the printers' backs. We sent up a distress sign, but it must have gone wrong, for a few minutes more, and much colder water came through the floor, on still another type case. Then a general alarm was turned in from the lower end of the stairs, and the man who stands at the door to bat the intruders over the head, was informed that the show would stop if it took the fire department, if they didn't turn off the water. They moved the watering pot on the west side of the building then, and continued in a louder tone of voice to administer punishment to the innocent.

The Troy lodge of Elks came down to do the work, and Dothan furnished about twenty-odd candidates.

One Amendment Carried.

The Good Roads amendment was the only one of the three constitutional amendments, voted upon at last Tuesday's election that went through; the other two, Biennial Sessions of the legislature and New County amendments, failed to be endorsed by the voters of the state.

The big counties in the state which desired to hold on to their big area, were able to defeat the majorities given in the smaller counties.

The biennial sessions was also not as popular as the people thought and it too went down to defeat.

The election returns are not yet all in but the final result is known already.

Commercial Club to Meet.

The regular monthly meeting of the Commercial Club will be held in the council chamber tomorrow night at 7.30 o'clock. All members and interested citizens are invited to be present.

Miss Minna Grimes left yesterday for Jacksonville, Fla., where she will visit for several weeks.

Fell in the Street.

Last night about 9 o'clock, a brick mason by name of Jones, fell in the street, suffering from the effects of several bottles of lemon extract which he had drunk as a beverage, nothing stronger being available.

Several similar cases have been reported recently when the victims were stricken in like way from the same cause. We learn that this lemon elixir or extract is being sold here in large quantities to parties who are accustomed to strong drink. As this stuff is a poison when thus taken, it's sale for such purposes should be prohibited.

Funeral of Old Soldier.

All the Confederate soldiers belonging to Camp Bartow, No. 1591, U. C. V. are invited to attend the funeral of William M. Fortson, at Bay Springs Church, eight miles west of Dothan, at 10 o'clock a. m. on the 6th day of December, 1908 (the first Sunday). Our flag bearer is requested to have our flag there and all soldiers are requested to wear their Camp badges.

M. V. White, Commander,
Geo. Leslie, Secretary.

Card Of Thanks.

Mr. and Mrs. J. N. Sellers, of Ashford wish to thank their friends for their friends for their kindness shown during the sickness and death of their infant son, who died last Friday morning.

Ex-Senator Carmack Killed.

Senator Carmack was shot and killed in a street duel yesterday evening in Nashville, Tenn., by Robin Cooper.

The trouble grew out of the late primary in which the senator was defeated for Governor.

The Grand Jury is still in session today. They will probably finish up their work today and make their report to the court. We will publish their presentment as soon as available.

Mr. W. P. Beauprie, the new manager of the Dothan and St. Andrews Bay road, arrived in the city yesterday at eleven o'clock, and left today on the eleven-forty train for Panama City, where he goes to look over the road, and get the lay of the land.

Iron Business Looking Up.

The iron industries in the South are looking up, and the Birmingham district especially report a bright outlook with plenty orders coming in. This brightening prospect is no doubt due to the political situation being cleared, and there being nothing else to do now but go to work developing the country. Every indication points to a resumption of business with a future period of prosperity.

Hon. W. L. Lee is here today.

Mike Solis, of Ozark, is here today.

Fire Yesterday.

Yesterday evening about 3 o'clock, the department was called out to the dwelling house of Mrs. M. A. Faulk, corner Troy and Lena streets.

One of Mrs. Bart Thrasher's little boys set fire to some turpentine dross which lay in the coal house, with the result that a fire soon spread, that not only alarmed the youngster but also the inmates of the house and everybody around.

The blaze extended over the small coal bin and before the department arrived, it had crept up the side of the kitchen and was in the roof when the stream of water was put on.

No great damage was done as help came just in time to save the building and contents.

Wrong Place.

Mr. Clarence Conrad, Chief of the Fire Department, requests us to state that they were directed yesterday evening to the Thrasher House, hence the delay in reaching the fire on Lena street as soon as they might have done had they been properly instructed at the start.

South-East Ala. Dental Association Organized.

The dentists of Southeast Alabama met in Dothan Monday, at the Mullen Hotel parlors, and organized a Southeast Alabama Dental Association, to meet semi-annually.

After many interesting talks from those present, the body went into permanent organization, and the following officers were elected:

Dr. J. R. McNair, Ozark, president; Dr. T. H. McEntyre, Dothan, vice-president; Dr. A. D. Wright, Enterprise, 2nd vice-president; Dr. D. B. O'Kelly, Slocumb, secretary-treasurer.

The following were named as members of the executive committee: J. R. McNair, Ozark; J. U. Pearsons, Abbeville; J. M. Stevens, Dothan; M. K. Ford, Elba.

The purpose of the association is to further advance the dental profession to a higher professional plane, and harmonize the profession in a more brotherly spirit.

Six counties were represented in the organization.

The next meeting will be held the second Saturday in April, 1909.

Since it's so fashionable for these one-hoss towns to invite Taft to winter with them, we forgot the novelty of sending in one for Dothan. Still, we are sure we could interest him.

Morgan Lisenby, of Ashford, was in town Tuesday.

R. V. Miller, of Abbeville, was here yesterday.

Mr. D. Thurman of Montgomery is in the city.

Prospectors Coming.

Secretary Layne of the commercial club has been in correspondence for some time with Mr. W. E. Terhune of Hanover, N. J., and is just in receipt of a letter from that gentleman saying he would be here in a few days. Mr. Terhune is an expert gardener and truck farmer, and no doubt will do well in this line here. His family will probably come down in a month or two.

The expert decorator and paper hanger from Talladega, with whom some correspondence has been carried on, writes in a recent letter that he will come down soon to look over the field with a view to locating.

Mr. E. O. Quillin of Troy is in the city.

Give Us the Figures.

The Democrats published the names and amounts given to this campaign fund before the election.

The Republicans promised to give to the public a similar report, after the election.

Let us have the list. If it was the lack of campaign money that contributed to Mr. Bryan's defeat we would like to know it. Anyway, a comparative statement would be of interest to the general public.

Jack McKissack, of Columbia, was here yesterday.

D. C. Lee has returned from a business trip to Cordele, Ga.

Large attendance at Dothan Theatre last evening to see the play Rip Van Winkle all were well pleased.

Rev. Poyner left yesterday for Prattville, for a few days visit.

M. Kennedy, of Crosby, was in town Monday, and paid a dollar on the Eagle.

Rain Coats in Cravanitts and Rubber at half prices. \$12 for \$6. \$10. for \$5. \$8. for \$4. Whaley's.

Mr. W. A. Baker the noted Baritone Soloist will sing "Come Nettle to My To My Side"

Only 5c and the pleasure is all ours.

A Complaint.

When the consumer has to pay 15 cents per kilowatt hour for light, he naturally demands a first class article. We hear complaints among our merchants that the lights in their stores are frequently inferior to kerosene lamps. This price, in itself, is enough to make one scratch his head, much less put up with poor service, without complaint.

It is talked that Roosevelt is to succeed Platt, as a New York Senator, and how in the world they can figure it out that Roosevelt can succeed such a man as Platt is more than we can see. We thought all the time that it was not a successor that New York wanted for Platt, but a United States Senator for that state.

Important Court Decision.

The Supreme Court of the U. S. rendered an important decision yesterday in the case of *Benuea college against the state of Kentucky*.

The court ruled that a state may constitutionally legislate to prevent the co-education of the white and black races.

The higher state court took the position that the white and black races are naturally antagonistic and that the enforced separation of the children of the two races is in the line of the preservation of the peace. The opinion of the supreme court was handed down by Justice Brewer and affirmed the finding of both the Kentucky circuit court and the court of appeals. Justice Harlan and Day dissented.

The killing of ex Senator Carmack on the streets of Nashville Monday is one more reason why it isn't safe for an editor to write everything that he feels like writing. He was a brilliant man, a brilliant editor of the Nashville Tennessean, but he had a grudge against a public man, a political grudge, it's true, and he never let up on him. The men met and shot it out.

In Colorado the other day, one young man poked his room mate in the ribs with the cold barrel of a revolver to awake him, and the pistol went off and put him to sleep for good.

Makes No Difference.

President Roosevelt has given out to the associated press, a letter upon the subject of Mr. Taft's religion. The president doesn't say what religious faith is held by the incoming president. He does say, however, that in his opinion, it makes no difference whether Mr. Taft is a Unitarian or an infidel, so he makes us a good president. The president regrets to see this religious question lugged into politics; and he says further that he expects this country to see Roman Catholics and even Jews elevated to the presidential chair in time to come. The president thinks this a question which is alone between a man and his God. There are lots of folks who will disagree with Mr. Roosevelt in his liberal views upon the christian religion of our rulers.

Two young men in South Carolina were going home from a party, in company with a young lady. One of the young men happened to think of a perfectly funny way to scare the young lady, and told the other boy, in an undertone, to shoot his pistol to see her jump. The pistol snapped, and while trying to get the thing in shooting order, it fired off, and the ball entered the head of the other bright young man, killing him. Up to this time, no fun has happened.

WEATHER FORECAST FOR ALABAMA.

Showers tonight or Saturday.

The weather man has been feeling fine here of late.

There are two sides to every question with equal force.

Most any kind of a husband can fool his wife, but he has to risk early to fool his oldest son, or even the next one.

The best way to make your boy do right is never to let him catch you doing wrong.

We will have to try to give the readers of this paper a little more to read in these columns, but not enough to give them the readers' cramp.

This is the season of the year when our friends come in and remember us most kindly, in a moneyed sense. Lots of our former friends who take this paper, come around and make a payment on the paper like taxes, both are evils that few escape.

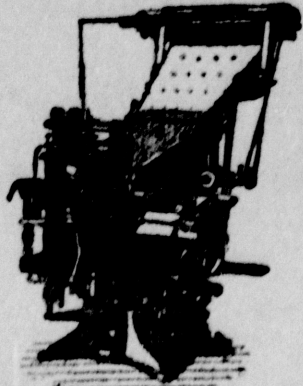

Atlanta elects a man for mayor nearly every time he asks for the office, who is counted among the boys, as a high roller, and one of them. He is an excellent judge of good liquor. It is said a man who may take too much without due warning and regret it afterwards. He is a man with good business abilities, and makes a good mayor when sober, and he is sober most of the time, but this is not enough to satisfy the particular, so now they are fixing to bring out an independent against him, and the chances are he will be defeated, for those fellows who look upon the cup when it is red, or looks like two, will lose out in everything by and by. It is about time for him to lose out, for he has been holding them down for some time in Atlanta.

Mayor Jim Woodward of Atlanta is a sort curious combination of a man. He seems able to be elected mayor of Atlanta whenever he asks for the place, and is the present nominee. Every little while, as reports have it, he gets out and rolls with the boys high—too high to be a credit to the city of which he is the chief executive. There is something about that man, though, that puts him close to the common people, for all of his shortcomings. The Georgian has taken up the fight against him and wants another man put out to beat him. This may be done, for any people will tire after awhile of too much rolling.

We will not put on an associated press service. We know who our subscribers are, and know that we couldn't chloroform them into thinking they are getting the news from a paper that we could afford to get out in a city of this size. We know they will continue to subscribe for the big dailies to get scandals, killings, marriage of the nobility, and we man over the big papers for that stuff, and if it fits our way of thinking, we just hog the whole article. If not, we write something about Dothan and Houston County, and let it go at that.

TO THIS AT LAST.

The above picture shows what a man will come to. Two months ago you couldn't have lawed one of these things onto us. Now, the chances are, it will have to be lawed out of us.

Ninety per cent of the newspapers about the size of this one, are failures, financially. It is a fact, too, that most small offices fail much quicker when assisted by a linotype machine.

The fellow who runs this one says it does fine. The brass plate says it's a Model 3, but whether it's a model piece of office furniture is yet to be seen.

It has two mazines, that is, it has two different sizes of type, eight and ten point.

We are learning the machine ourselves. We found that it takes 7000 fees, all arranged in their places, to make it run, and there are 579 other parts that are badly needed at times, but you can get along without them. Of this vast number, we have already mastered four, so it's just a question of time when the other 575 are ours.

Some few years ago we traded for his printing outfit, with a view of doing some job work for our friends, and the rest, and as a side line, got out a little weekly, which had already been pretty well established. We had no newspaper press, but after a year bought one. Bought a gas-line engine, and pulled everything with it, when it would pull at all. Then added a thing here, and another there, till we got a pretty decent shop for a small office. Then the town got tony and furnished electricity every day and Sunday, as well as night, so it looked better to put in a motor, and we did that.

Other things happened, and when it blew over, we had on daily paper in Dothan. Nobody cared specially about not having one, but they all said it looked bad for a town to let a daily paper die on its hands. For it was no good advertisement for a town that was fast making claims to everything, even that of being a city, the "Queen of Wire-grass."

So the people went about the streets mourning and wringing their hands for a daily paper and nobody could answer them, for there's a remarkably large number of people who knew that daily papers are needed for the junk heap, unless heaps of money is chunked in behind them till traveling is easy. This is seldom ever done, by way of it's. No one would answer the call. Some goodnaturedly hinted that we ought to try it, but they feared we might, really. They'd seen us tried in that capacity before, and had no cause to repeat the sufferings.

We took the opportunity by the brass-tipped horns, to try it the best two out of three.

So we have taken the gambler's chance. We haven't really lost anything in the business of getting out this paper so far, and hope that we can keep from it a year or so more, and at the same time, keep this linotype machine going.

We would dislike mightily to fall down on the proposition, and we are counting on putting up a game fight.

We know the business better than we once did, but we are just a student yet.

The way we see it, the mechanical end of the newspaper office is where the brains should be. Most any kind of a dummy can watch the front end, and look pleasant at the public, but you want good planning and good execution of those plans to get results that pan out in dollars.

However, to keep a good credit, we put this machine way back in the rear end of the office, where it wouldn't be seen except by folks who were looking for something.

Come and see it, but don't handle the hot metal, and ask if the man went crazy who invented it.

It is of some interest to note that the Republican vote fell off in this county to what it was four years ago. At the election of Roosevelt, there were 334 Republican votes cast in this county, and in the last election, there were but 242, a falling off of 142.

Whenever you fail to find something in the paper that you were expecting, just happen to think. We may have left it out.

A GREAT CARNIVAL AMUSEMENT EVENT.

It Will Be an Afternoon and Night of Profitable Study and Knowledge.

For the past few days the proverbial small boy-yes, and a large number of the big boys, too, some of whom have gray hairs in their whiskers—have been keen observers of the multi-colored posters which adorn the bill boards of Dothan, announcing the fact, that the Great "So Different" Shows, the Sun Brothers' Greater Progressive Carnival Exhibitions, will appear here Nov. 23rd. While the Sun Brothers' Show, does not claim to be the very earth, it is concededly, one of the best all-round inter-day amusement carnivals traveling in America.

HISTORY.

Any one who will look carefully into the combined narrative of past events of society, religion or government will find themselves unconsciously broader and more charitable in regard to the views of others. Really, to bring one to your way of thinking, you must listen to their views and be in sympathy with them. Now, this is a lesson which was hard for us to learn, but we have mastered it fully. So, if your blood is wrong, or act, not tomorrow.

The A. M. E. Congregation of this city are erecting for themselves a handsome church in the eastern part of the city. The church is built of wood and veneered with pressed brick, which gives to it the appearance from the outside of a brick building. The church is a large one, with a Sunday school room attached to the main auditorium. The two rooms will seat probably eight hundred persons. The structure, when completed will cost about \$8,000, so we are informed.

Grant Clothing Company

A late decision was handed down in Washington, to the effect that all hotels, cafes, ice cream parlors, barber shops, in the District of Columbia, will be compelled to serve all negroes in the same room, at the same table, and in the same manner that the white people are to be served. But the people who run such places have fallen upon a new plan. The negro who squares himself to the quick lunch counter for a small steak it will cost him \$11.60; with onions' \$16.25. If he wants a cup of coffee, he can hand out the sum of \$2.35, while he pours the cream and sugar. Down this way, we make no such pretensions. We just tell him to move on, or he doesn't stop in the first place, rather. There's no necessity to try to drive him away by such prices. We know the negro down here, and he knows us all, and our ways, and we all get along very well.

Biggest of Battleships.

The battleship "North Dakota" was launched yesterday at Quincey, Mass., Navy Yards. The building of this war monster, which is on the English Dreadnaught type is the largest ship ever designed by this government. Its comparison in size, to the other battleships of our navy, is as an ordinary ocean liner is to the Mauretania or Lusitania. Where the Connecticut has four twelve inch guns to the side of the North Dakota has ten; and is 115 feet longer than the longest of our other ships. It draws 27 feet of water, and its cost will be ten millions of dollars.

Another companion ship to this one has been authorized by congress.

Jenny's Quick Method. Jenny's uncle, who was a school-teacher, met her on the street one beautiful May day and asked her if she was going to the Maypole dance. "No, I ain't going." "Oh, my little dear," said her uncle, "you must not say 'I ain't going.' You must say 'I am not going.' And he proceeded to give her a little lesson in grammar. "You are not going. He is not going. We are not going. You are not going. They are not going. Now, can you say all that, Jenny?" "Sure, I can," she replied, making a courtesy. "There ain't nobody going." —Ladies' Home Journal.

Jury at the Theater. An unusual spectacle was witnessed at the Theater Royal, Nelson, Auckland, when the jury, who had been locked up three nights because they could not agree to a verdict in a murder case, were allowed to witness a living picture display. They had expressed a desire to attend the theater as a relief, and the judge consented. —Auckland News.

"That's interesting," returned his hearer. "Come to think of it, something like that happened several thousand years ago in connection with Balaam, wasn't it?" —Circle Magazine.

Fiji Islanders' Sugar Cane Dance. A very curious and exceedingly clever dance may be witnessed in Fiji called by the natives "The sugar cane meke," or sugar cane dance. It represents the growth of the sugar cane in the first figure the dancers squat low on the ground, shake their heads, shut their eyes and murmur slowly and softly an unintelligible sentence. Gradually they all stand up together growing taller and taller, and as they "grow" they wave their arms and tremble all over from ankle to head like the tall, tasseled cane waving in the wind, and still they keep on chanting louder and louder. The last figure represents a series of combats meant to symbolize the exactions of the chiefs, who compel the "kanis" willing and unwilling, to come and cut their crops. —London Standard.
